ABOUT GOLDEN WHALE PRODUCTIONS

- Golden Whale Productions leverages over 20 years of expertise in gaming platform development to revolutionize the wagering and gambling game content and platform technology using advanced machine learning techniques.
- Our leadership team combines world-class experience across software development, biotech, and gaming -- we deliver cutting-edge solutions tailored to the dynamic needs of the casino gaming industry.

KEY OFFERINGS

- **WE INTEGRATE WITH COMPLEX ENVIRONMENTS**
Golden Whale's technology seamlessly interfaces with existing CRM systems, enhancing them with continuous, optimized, AI-driven workflows that replace traditional A/B testing with scalable, real-time analytics.
- **WE OFFER AN ADVANCED DATA HANDLING AND ML DEPLOYMENT**
From data acquisition to model orchestration, Golden Whale offers a comprehensive suite of tools for real-time insights and semi-autonomous optimization mechanisms, ensuring high engagement and monetization.
- **WE DELIVER ADVANCED SEGMENTATION AND PREDICTION MODELS**
Through specialized models, Golden Whale predicts player behavior and value, enhancing user segmentation and fraud detection to optimize onboarding, bonuses, and overall player journey.
