

Preferred Payments is a technology company providing secure, customizable and scalable payment infrastructure - helping banks, ISVs and sales organization achieve strategic initiatives in embedded finance.

Preferred's flagship product, ECRYPT, provides a versatile suite of card-present and card-not-present payment products offering a true omni-channel payment solution.

The platform's robust API gives partners the the ability to build and customize their ideal payment experience while removing the burden of PCI compliance. As markets evolve at a rapid pace, the ECRYPT platform keeps integrated partners in the lead by offering the flexibility and technology needed to secure payments in any environment.
