Intro Deck

Pillow Fight Championship (PFC)

Pillow Fight Championship began with an idea to develop a real fighting sport that would appeal to the international family audience by combining a modified version of the ancient play weapon known as a "pillow" with experienced MMA competitors & boxers and strict rules. PFC has quickly evolved into a very popular sport-based showcase complete with all the strength, stamina and strategic skills of the other more brutal combat sports but with a massive amount of fun!

SCORE NO SCORE

Score No Score is an innovative way to enhance the game watching experience for fans of all interest levels. Users bet tokens on micro-bets such as, will there be a run scored in a given inning, or whether a football drive will result in points. Players swipe left or right (betting tokens) when the outcome is in doubt and then have the option to double their bet one time during the current drive or half inning. In essence, the "odds" are created real time exclusively by the players in the game. The goal is to add more gratification to the gaming watching experience as players try to out predict each other on the outcome of the next scoring opportunity.
