How it Works

1. We develop a branded desktop and mobile web app with customized betting pools 2. You determine prize structure, marketing channels, and optional sponsors 3. Users sign up (can connect loyalty cards) and receive fake currency to place bets 4. We fully manage pools, operations, and data with our admin system 5. Users compete to climb the leaderboard, get rewards, and share with peers on socials 6. Users come on property to redeem prizes, driving incremental visits 7. You receive user and betting data to expand your data and to remarket
